Great Inventions: Transport

- What I will know by the end of this unit**
- Who flew the first aeroplane
 - What the first aeroplanes were like
 - Why the Rainhill Trials were important
 - The differences between modern trains and the locomotives of the past

Key Vocabulary

century
flight
invention
locomotive
significance
transport

Orville and Wilbur Wright were brothers who invented the first successful powered flight in 1903.

George Stephenson and his son Robert invented a locomotive called The Rocket which won a competition at the Rainhill Trials when it was the only one to finish the course reaching a top speed of 30mph.

- Investigate!**
- Who invented the **motor car** and when?
 - Who invented the **bicycle** and when?
 - Draw pictures to show what they looked like!
