

History – The Bronze Age to The Iron Age

What I should already know

- There were three periods in the Stone Age
- They were called the Palaeolithic, Mesolithic and Neolithic
- Artefacts tell us about the past
- How to sequence some historical events
- How to select key information from a range of sources

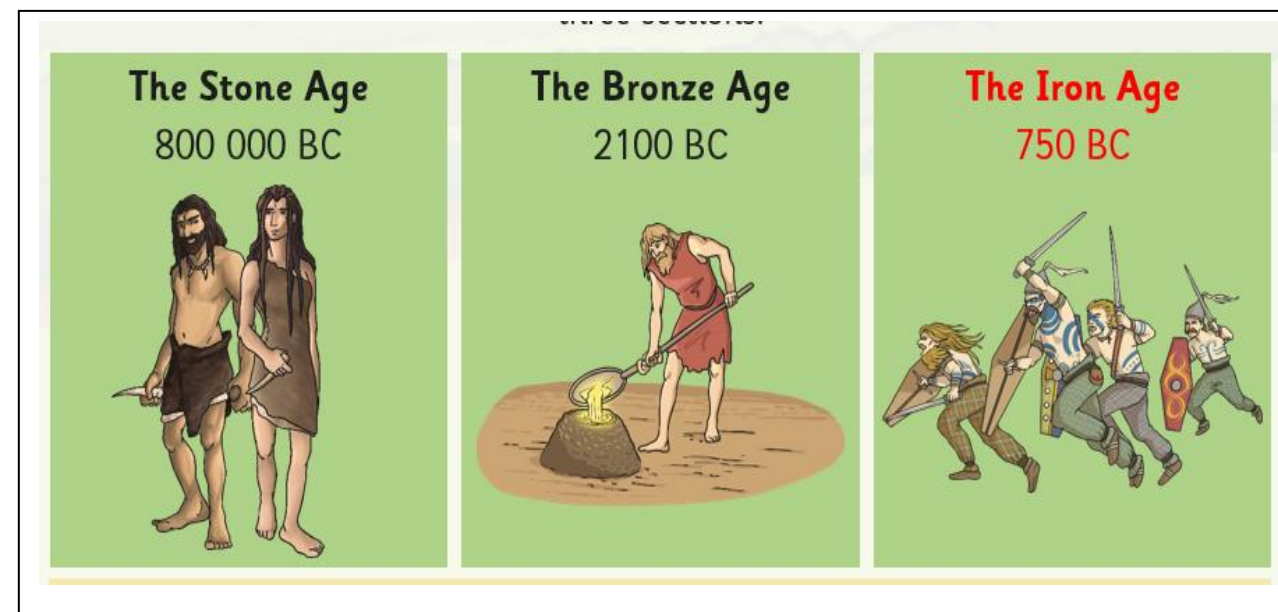

What I will know by the end of the unit

- Develop a chronology of British history
- Understand how our knowledge of the past is constructed from a range of sources
- Answer questions using evidence
- Think about how life changed and why it was important

Key Vocabulary

bronze	alloy made from copper and tin
smelt	extract metal by heating and melting
hillfort	settlements that made use of natural rises
hoard	store of money or valued objects
druids	priests and the religious leaders
wattle and daub	interwoven sticks held together with mixture of animal dung, straw and clay

Key questions to think about:

- ❖ How do we know about the Bronze and Iron Age?
- ❖ Who is the Amesbury Archer?
- ❖ What changed from the Stone Age to Bronze Age?
- ❖ How did life change from Bronze Age to Iron Age?
- ❖ Why are the Beaker people significant?
- ❖ How did Iron Age people protect their settlements?
