Important information about upgrading gas pipes in your area

Dear Resident

Wales & West Utilities owns, operates and maintains the gas mains and service pipes that deliver gas to the majority of homes and businesses across Wales and South West England. Wales & West Utilities will shortly be undertaking essential maintenance work in your area.

In order to safely undertake these works, we have a series of Road Closures and parking suspensions affecting Polden Street, Devonshire Street and Wellington Road in the coming months. Signage will be updated as we progress and further letters detailing parking suspensions will be sent out in October to those affected with details of dates and anticipated durations.

We start our works in Polden Street with a road closure from the junction of Monmouth Street up to but not including the junction of Wellington Road. We anticipate this closure duration to be 3 weeks. This will be followed by closing the junction of Wellington Road and Polden Street for a further 2 weeks. There will be a turning circle on Wellington Road at the junction with Polden Street during the second part of the closure. The first closure will be in place from 9 September 2024.

Pedestrian access will be available at all times and we will give residents vehicle access where possible.

I'm sorry for any inconvenience this may cause.

Our Customer Service Team is ready to take your call if you have any questions about our work. You can contact them on 0800 912 2999 or by emailing enquiries@wwutilities.co.uk. Or you can contact us on Twitter [@wwutilities](https://twitter.com/wwutilities) or Facebook.com/wwutilities.

Smell gas? Call us!

Coedkernew, Newport NP10 8FZ
Registered in England and Wales number 5046791

If you would like to receive a copy of this letter in large text, in Braille or in another language, please let us know and we will do our best to meet your request.

Yours faithfully
Roxanne Whittaker
Programme Controller

About us

We are Wales & West Utilities, the gas emergency and pipeline service across Wales and the south west of England. Every day our skilled and dedicated colleagues do their very best to keep our 7.5 million customers safe and warm, with a gas network they can rely on and a level of service they can trust.

We don't sell gas – instead we use our extensive network of pipes to transport gas to homes and businesses throughout Wales and the south west of England. We respond to gas emergencies, and we invest in our network, connecting new properties and upgrading old metal pipes to new long-lasting plastic ones, to make sure the communities we serve receive a safe and reliable gas supply for generations to come.

It's a vital service – and one we are extremely proud to deliver.
